Hey - I received a call from Trip McConkey, who is the manager of the Penn Plaza Self Storage. He was asking about what he should do reference a storage unit where the renter is several months in arrears and he is looking to pursue an auction (Storage Wars!) – but was concerned about a police report being written about the storage unit in question containing stolen property, and he did not want to conduct the auction if that was the case.

He said one of the people that may have some of their property (which is stolen) in this unit has been in contact with him, and said this person filed a report and you were the responding officer.

LT Olan suggested I ask that you contact Trip as the LT said you were working on this and had some background with it.

Trip's number is (b) (6)

Thanks.

Joe
